

# ECO LINE

## Eco Friendly Refrigerant

Low Carbon footprint natural hydrocarbon refrigerant which has low energy consumption to assure product longevity and recyclability

## Energy Efficient

Optimum sized compressor combined with high wall thickness reduces heat transfer and improves performance in hot kitchens, thereby improving energy efficiency

## Minimum Noise

enhanced design to reduce noise of compressor and fans to reach minimum noise for commercial refrigerator

## Compact Size

compact design with the same storage capacity which offers high cooling performance with optimized dimensions.

MODEL	DIMS (MM)	No. Doors	CAPACITY LT.	TEMP. °C	INPUT Current (A)	SUPPLY VOLTAGE
ECOZH2D	1200X700X850	2	290	+2 / +8	2.2	1/N/PE - 230V/50HZ
ECOZH3D	1650X700X850	3	450	+2 / +8	2.5	1/N/PE - 230V/50HZ
ECOZU1D	720X830X2100	1	700	+2 / +8	2.5	1/N/PE - 230V/50HZ
ECOZU2D	1440X830X2100	2	1400	+2 / +8	3.7	1/N/PE - 230V/50HZ
