

ECO LINE

Eco Friendly Refrigerant

Low Carbon footprint natural hydrocarbon refrigerant which has low energy consumption to assure product longevity and recyclability

Energy Efficient

Optimum sized compressor combined with high wall thickness reduces heat transfer and improves performance in hot kitchens, thereby improving energy efficiency

Minimum Noise

enhanced design to reduce noise of compressor and fans to reach minimum noise for commercial refrigerator

Compact Size

compact design with the same storage capacity which offers high cooling performance with optimized dimensions.

MODEL	DIMS (MM)	No. Doors	CAPACITY LT.	TEMP. °C	INPUT Current (A)	SUPPLY VOLTAGE
ECOZC2H	140X70X85	2	285	+2 / +8	2.2	1/N/PE - 230V/50HZ
ECOZC3H	185X70X85	3	445	+2 / +8	2.5	1/N/PE - 230V/50HZ
ECOZCIU	72X83X210	1	580	+2 / +8	2.5	1/N/PE - 230V/50HZ
ECOZC2U	144X83X210	2	1275	+2 / +8	3.7	1/N/PE - 230V/50HZ
